EEW completes sale of Sellindge 13 MW solar Farm

EEW Eco Energy World is pleased to announce that the company has completed the sale of the 13 MW Sellindge Solar Farm located in Ashford Kent, United Kingdom. The project that has been fully developed by EEW, was acquired by, Baywa r.e. solar projects GmbH for an undisclosed purchase sum.

Svante Kumlin from Eco Energy World said: “EEW are very pleased to have concluded this sale to Baywa and this is another milestone for EEW and its Team”.

About Eco Energy World

Eco Energy World Ltd is an innovative renewable energy company with a focus on photovoltaic (PV) solar energy production. Their team has a wealth of experience in solar technology and developing solar energy plants, are members of the Solar Trade Association, and work with some of the biggest solar companies in the world.

To date, they have developed several hundred MW of solar projects in Europe. Nearly 100 MW of projects are currently being developed within the UK. These developments will make a significant contribution to address rising energy demands

and lessen the reliance on rapidly - diminishing fossil fuels.

Eco Energy World has a wealth of experience in solar technology and developing solar energy plants, having been active in the sector for more than 20 years.
